INDEX

KEY. Capitalized names refer to authors as subjects of material cited in the Annual Review. An asterisk following the names indicates that there is an entry for the author in its proper alphabetical order in the Individual Writers part of the Review. Page citations following the name refer to mentions in the General sections or elsewhere.

Names in lower-case refer to writers of the critical and scholarly material cited in the Review. The letters dd before a page number indicate a reference to a dissertation directed by the writer. The letter r indicates that a review by the writer is included in this Annual Review. Numbers not preceded by dd or r indicate pages where work by the writer is cited.
